FREDO Cat 3350 XL ALUMINIUM PONTOON SPORT BOAT

The ultimate, versatile, multi-hull platform to meet all your small craft needs. An ideal stand-up multi-use platform for both fresh and saltwater use. With a beam of over 5 feet (1.75m), two adults standing on the front deck has negligible impact on the balance of the boat.

The Fredo Cat 3580XL is a twin-hulled platform made of roto-moulded HDPE plastic. The hulls are foam-filled, which means that the craft is virtually unsinkable.

The pontoon can be launched using a 2-wheeler trailer. The incredible buoyancy and stability of the twin hulls provides a very stable platform to shoot from and your dog(s) can easily get on and off the Fredo Cat. The boat is also ideal for accessing remote areas that have very shallow waterways.

SPECIFICATION

Dimensions

Length	3.35m
Width	1.75m
Height	0.60m
Weight	130kg dry, (excl. motor)
Hulls Design	Catamaran
Pontoon	roto-moulded HDPE Plastic
Deck Thickness	5083 Aluminium 6mm
Maximum power.....	70 HP

FEATURES

Cushion seat.....	for 2 persons
Port and starboard grab rail	316 Stainless Steel
Built-in fuel tank below deck	50 Litres
Custom made Bemini top with 316 stainless steel	
Bruce anchor 10Kg with anchor roller	
Foldable 316 stainless steel ladder	
Hydraulic steering system
